Welcome!

Visitation Academy is a strong and energetic community, linked to the rich history of the Sisters of the Visitation; it is a place where students are able to grow, thrive, and be intellectually challenged. We offer a dynamic education, which nurtures students academically and spiritually.

All of us at Visitation Academy are working hard to meet the new needs prompted by current conditions in the world around us. Our goal is to continue our supportive and safe learning community in our small school setting.

We are planning for the 2021 - 2022 school year.

We are mindful that there needs to be flexibility to and allow for smooth transitions between classroom learning and remote learning should there be any future spikes of COVID-19 or other viruses, which could put the health and safety of students and staff at risk.

Our class sizes remain small and the classrooms are large enough to accommodate for social distancing in the classrooms; we have the flexibility to arrange lunch and outside play to meet any requirements, which will be set by NYS.

We will, of course, make necessary changes in classroom layouts to be able to accommodate social distancing. Teachers will continue to be vigilant about student health and hygiene. We are coordinating learning so that the curriculum seamlessly flows at the start of the new school year.

We are planning for the additional support necessary for teaching and learning, advising, and student, faculty, and staff health and well-being. The faculty are constantly working together to ensure our school is ready for September. Life will hopefully be back to "normal," and students will return to the school building and participate in classes and activities on campus. Visitation offers academically enriching experiences to enable our students to develop higher order thinking skills. Salesian values are emphasized so that each girl knows she is an integral part of our school community and valued for her own unique gifts and talents. We want our students to become life-long learners who are confident in their abilities. Our graduates are prepared for the rigors of high school and are young women who stand ready to make an impact upon the world.

Attached you will find the health form which needs to be completed for the start of school.

Additional information regarding the beginning of school will be sent in the coming weeks.

We want you to know we are here to address any questions or concerns you may have during this stressful and uncertain time. Please contact us at: office@visitationacademy.net.

Mrs. Jean Bernieri
